

# Help our school **FLOURISH**

Your gift to the Annual Fund has a real impact in the classroom and in our community. Your gift, no matter the size, helps enrich the learning experience for our students opening up opportunities to **explore, discover and grow into the leaders of tomorrow!** Here are some of the ways your gift builds up our community.

What is the annual fund? Why should I give?

St. David's Episcopal Day School relies on annual, tax-deductible gifts, in addition to tuition, to continue to provide enhanced facilities, technology, and educational opportunities for students. The proceeds provide our school with financial flexibility to make investments that would not be possible through tuition revenue alone, such as:

Providing tuition to families in need to promote inclusivity and opportunities for all to succeed.

Equip each one of our classrooms with state of the art technology to enrich the learning experience for students of all ages.

We are incredibly blessed with 39 acres of outdoor learning spaces to explore. Your gift can help grow our nature center learning tools and provide more enriching experiences to explore these outdoor classrooms.

Attract and retain highly qualified and educated staff members who continue to learn each year by attending workshops, webinars and conferences.

Our average staff to student ratio is 1:7. Research shows that smaller is better when it comes to learning. Maintaining small class sizes is a priority at St. David's Episcopal Day School to help us reach our goal of providing high quality education while developing personal and meaningful connections with our students.

Does class size really matter? Research says yes.

SDEDS is 501(c)(3) non-profit institution and charitable donations are tax deductible.

Music, art, STEM and other special programming can be a direct result of your gift to our school!
